To the extent Retailer offers any Products for sale over the internet to California consumers, please be advised that Prop. 65 imposes certain requirements on websites of internet retailers. As to Products requiring a warning, for internet sales to California consumers, there must also be a warning consistent with the warning provided on the Product label by either including the warning itself or a clearly marked hyperlink using the word “**WARNING**” on the Product display page with a link to the warning, or by otherwise prominently displaying the warning to the purchaser prior to purchase. The warning provided on the website must use the same warning language as that found on the Products.

Please be advised that internet warnings are not compliant with Prop. 65 if a purchaser must search for the warning in the general content of the website. **Accordingly, please provide the Applicable Warning in this manner as to all Products sold to California consumers over the internet.**
